Find the Buried Fences

After the deepest snow in years, the timber fences around Frostwood have vanished under the drifts. Only the tops of the posts still show, and on some of them the lot-keeper has hung a little number.

100 maps are left, from the village garden lots to the high orchard terraces. Each one is a Slitherlink puzzle (also called Loop the Loop or Fences): draw one closed fence from post to post so that every number counts how many sides of its square are fence.

Every puzzle has exactly one solution, checked by computer, and every one can be solved by logic alone, with no guessing.
