Solutions 157

Every winter the ponds, streams and lakes around Frostwood freeze hard, and the village lays little timber footbridges from island to island so everyone can walk out on the ice. This year the plans have blown away in the snow. 180 maps are left, each showing only the islands and how many bridges each one needs. Every puzzle has exactly one solution, and every one can be solved by logic alone, with no guessing.

Before You Cross

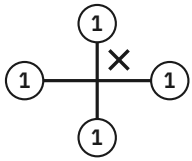

How to Play

Each puzzle is a map of **islands**, the circles with numbers. Join them with **bridges** so that:

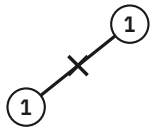

- Every island has **as many bridges as its number**.
- Bridges run in **straight lines** across or down the map, never diagonally, and never pass over an island.
- Two islands may be joined by **one or two bridges**, never more.
- Bridges **never cross** each other.
- When you are done, **all the islands are joined** in one network: you can walk from any island to any other.

One or two bridges: yes

Crossing: no

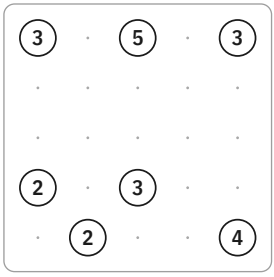

Diagonal: no

Useful Tricks

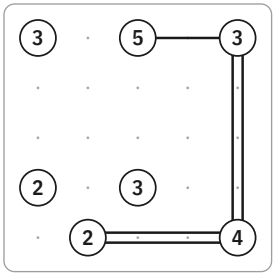

- **Count the neighbours.** An island can take at most two bridges from each neighbour. A **4** with two neighbours, a **6** with three or an **8** with four must have two bridges to every one of them.
- **One short.** A **3** with two neighbours, a **5** with three or a **7** with four must have at least one bridge to each.
- **Lonely islands.** An island with just one neighbour sends all its bridges there.
- **Keep the network open.** Two **1**s can never be joined to each other, and two **2**s never by a double bridge: they would make a little group cut off from everything else. The same goes for any finished group. A group with only one way out must use it.
- **What if?** From Part Three on, try a bridge in pencil and follow it until something breaks, then rub it out: you know that bridge is not there.

Let's Build a Bridge

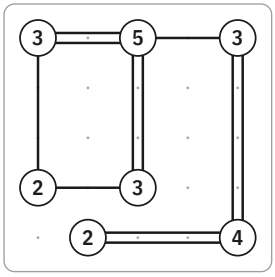

A Worked Example

The puzzle

After step 3

Solved

This little 5×5 map has seven islands. Draw single bridges as one line and double bridges as two lines side by side.

1. The **2** in the bottom row has only one neighbour: the **4** at the right end of its row (there is no island above it or to its left). Both of its bridges must go there, so draw a double bridge.
2. The **4** in the bottom-right corner has only two neighbours and can take at most two bridges from each. It needs four, so it needs two from each: draw a double bridge up to the **3** in the top-right corner.
3. That **3** now has two bridges and needs one more. Its only other neighbour is the **5**, so draw a single bridge across to it. (This is the middle picture.)
4. The **5** has one bridge and needs four more, from its two other neighbours: the **3** to its left and the **3** below it. Each can take at most two, so both are double bridges.
5. The **3** below the **5** now needs one more bridge, and its only other neighbour is the **2** to its left: a single bridge.
6. The top-left **3** has two bridges from the **5** and needs one more, so it goes down to the **2**. Every island now has its number and all seven are joined in one network.

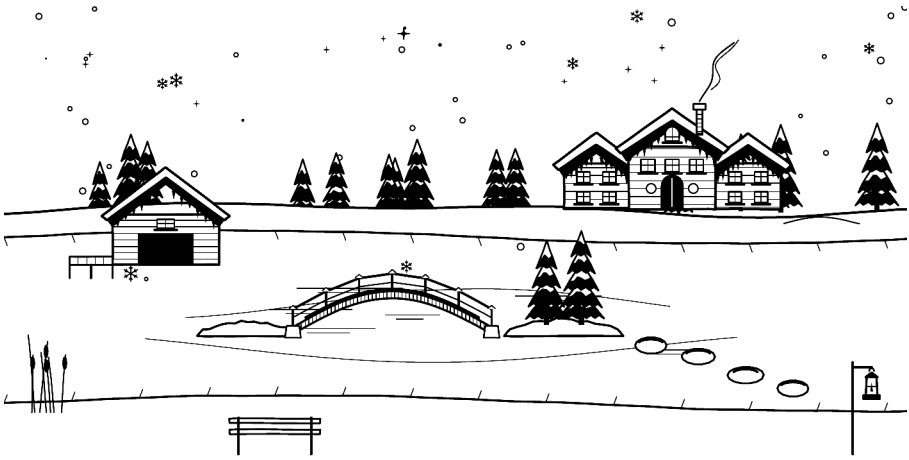

Tick each island lightly as its number is met. Solutions are at the back of the book.

Part One · Easy · 7×7

The Lodge Pond

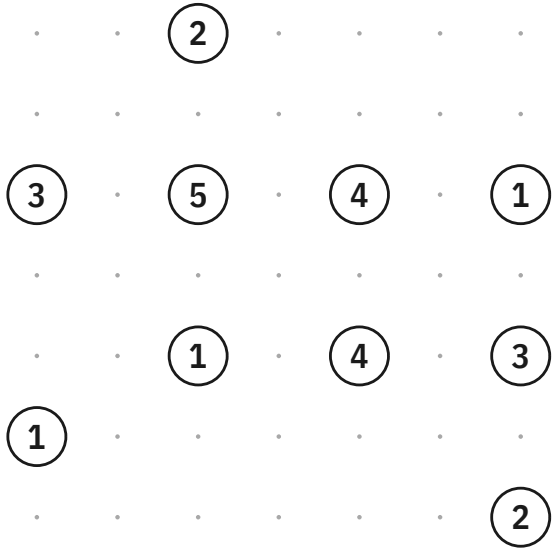

Puzzles 1 to 40

Seven-by-seven corners of the pond, ten to fourteen islands each. Start with the islands that have only one or two neighbours, and with the big numbers: a 4 in a corner or a 6 on an edge has no choice at all.

THANK YOU FOR CROSSING

Bridges of Frostwood

If you enjoyed building bridges across the Frostwood ice, a short review helps other puzzlers find the book. The bridge-keepers read every one, usually with a mug of cocoa after the last plank is laid.

ALSO BY BLAKE LA PIERRE

A Frostwood Puzzle Book

The Thief Stayed the Night

A snowbound hotel mystery puzzle book. Twelve cozy elimination cases at the Frostwood Lodge.

Frostwood Express

200 Train Tracks logic puzzles. Lay the railway that climbs from the valley to the lodge.

Stars over Frostwood

180 Star Battle logic puzzles. Chart the winter sky from the village green to the lodge observatory.

Tents in Frostwood

180 Tents and Trees logic puzzles. Pitch camp among the pines, from the lodge meadow to the ridge.

Riddles by the Frostwood Fire

140 cozy winter riddles and text logic puzzles, made for reading on a Kindle.

The Frostwood Sketchbook

140 nonogram picture puzzles. Shade the grids to reveal the sketches in the lodge's winter sketchbook.
