

ALL ABOARD FOR FROSTWOOD

The snow came down all night. Now the line to the mountain is buried, and the Frostwood Express can't run until the track is re-laid.

Two hundred stretches of line lie between the valley and the old lodge at the summit. On each one, the numbers beside the rows and columns tell you how many squares hold track, and a few pieces are already in place. Your job: lay one unbroken track from A to B.

Every puzzle has exactly one solution, checked by computer, and every one can be solved by logic alone, with no guessing.
