Pour Two Cups

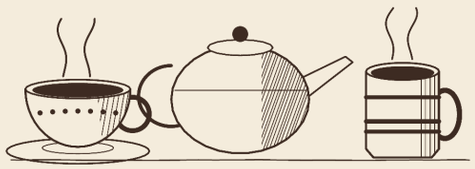

One cup for each of you. One question at a time.

Two Cups of Tea is a cozy year-long journal for couples. Each week brings a gentle theme and three thoughtful questions, with separate space for each of you to answer in your own words, so you can compare notes, laugh, and learn something new about each other.

Choose who is the Teacup and who is the Mug, put the kettle on, and begin wherever you are: new love, newlyweds, or many happy years in. Charming black-and-white illustrations of porches, picnics and fireside evenings follow you through the seasons.
