KEEP THE STORIES

Some stories only live as long as someone remembers to write them down.

This hardcover keepsake invites a parent or grandparent — or anyone whose life you want to hold on to — to answer gentle prompts about childhood, home, love, work, holidays, favorites and the wisdom they hope to leave behind.

There is room for a family tree, a simple timeline, letters to children and grandchildren, and extra lined pages when a story needs more space. Black-and-white ink drawings of cottages, lamps and fireside rooms make each section feel like home.
