Twenty-Four Doors to Christmas

Every December the Great Advent Clock in the lobby of Snowberry Lodge hides a silver star behind one of its twenty-four little doors, and every year the old clockmaker leaves a puzzle to find it.

Open one door a day from December 1 to Christmas Eve. Behind each one is a short story scene and a puzzle: a secret code, a snowy maze, a hidden picture, a word grid, a logic problem. Each puzzle gives you one word, and each word gives you one key letter. On Christmas Eve the twenty-four letters spell out where the star is hidden.

Every puzzle was checked by a computer program to make sure it has exactly one answer, so there are no broken days.

- 24 daily puzzles of 19 different kinds, getting harder towards Christmas
- A cozy, festive story that runs through the whole book
- Three levels of hints for every door: Nudge, Foothold and Last Step
- Full solutions, one per page, with a short explanation
- No phone, app or internet needed, just a pencil
- A thoughtful stocking stuffer for puzzle-loving adults and teens

24 ·

One door a day,
December 1 to 24.
One letter each day.
One message at the end.
