# How to Use This Book

This book holds twenty-five Christmases, one after another. Each Christmas has four pages of its own: a page for a photo or this year's Christmas card, a page for who was here and how the tree looked, a page for Christmas morning and the meal, and a page for gifts, the best moment and a wish for next year.

Fill in the year at the top of each Christmas. Start this year, whatever year it is, and simply keep going.

Write a little on Christmas night, or on a slow day before New Year, while the memories are still fresh. Pass the pen around: let grandparents, parents and children each add a line in their own handwriting.

Every Christmas has one question of its own, so no two years look quite the same.

At the front are pages for your family traditions and for the family as it is today. At the back you will find all twenty-five Christmases at a glance, pages for treasured recipes, and letters to the family of the future.

Use a ballpoint or fine-liner pen, and a glue stick or photo corners for pictures.

# Thank You

*Thank you for keeping your family's Christmases in this little book. We hope it fills up with photos, handwriting and stories that your family will love to read again every December.*

*If you enjoyed it, a short review on Amazon helps other families find it, and it means a great deal to a small, independent author.*
